(A3L) Aromatherapy - Personalized Formula Design

Scenario 1: Dry Skin and Fine Lines

Description

A 40-year-old woman suffers from dry skin caused by long-term dehydration, with fine lines appearing around her eyes and mouth. She seeks an aromatherapy solution to improve hydration, reduce fine lines, and restore skin elasticity.

Task

Design a **10mL care oil formula** emphasizing deep hydration and repair functions. Complete the actual blending of the formula.

7. Response Template

1. Carrier Oil	
Types and Proportions (total 100%):
